The master replied: "Self is identity. Ego is the clinging to that identity."

A WARRIOR'S JOURNEY

Turning The Wheel of Life

Each annual wheel is conducted as a turn of the wheel consisting of twelve stages combined in a number of modules, starting in August - ending in June.

1st Year: Turning The Wheel of Self

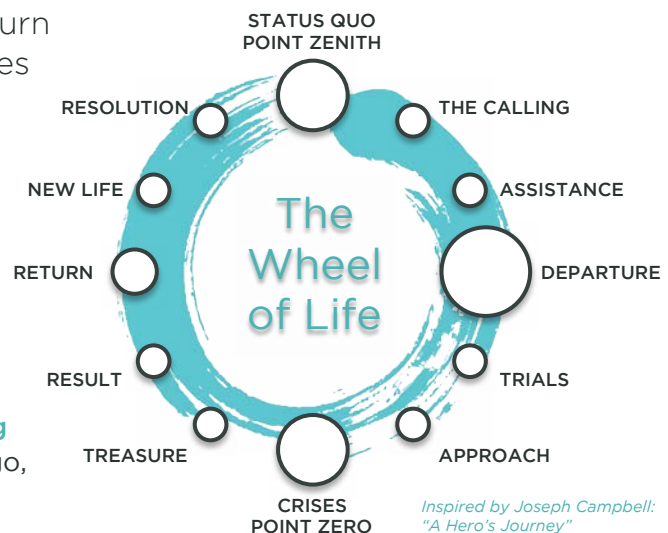

Personal Leadership, Taming Ego,
A License to Self

2nd Year: Turning The Wheel of Serving

Servant Leadership, Transcending Ego,
A License to Serve

3rd Year: Turning The Wheel of Transforming

Transformational Leadership, Transmuting Ego,
A License to Life

Consciously Working with Ego

Ego disguises itself in many forms and plays many tricks on us, disturbing our efforts in living our lives in balance with dignity, resilience and clarity. To make true and lasting change possible from within each turn of the wheel works with Ego in various ways, transmuting Ego into a trustworthy and helpful 'partner'.

Community of Fellow Travelers

A Warrior's Journey is your opportunity to meet and share in a community of fellow travelers, all having different experiences in various positions and life situations. All sharing similar challenges when it comes to live their life in balance and in accordance with a deeper calling and purpose of being a leader.

Continuous & Evolving Learning Process

Turning the wheel is a continuous and evolving process. Your personal learning and development will be encouraged by experienced facilitators supporting you in exploring the different stages, using: conceptual frameworks, co-creative trinities, coaching and mentoring, meditation, contemplation and reflection in silence, deep dialogue, open space and constellation work, body-mind techniques, rites of passages and being in nature.

Straagaarden is the main center of reconnecting.life and provides the settings for all modules of A Warrior's Journey.

We believe that nature is a pivotal part of reconnecting to life. Straagaarden is an ecological farm and the biggest Straw-bale Farm in Denmark situated in the beautiful nature of North Zealand surrounded by fields, only 35 minutes from the center of Copenhagen and 7 minutes walk from a train whistle stop.

Straagaarden is based on 5 Living Principles:

- We co-create by giving and receiving
- We share the same Earth
- We therefore share the same common interest to live in unity
- We understand that we are part of Nature
- We know that respect for Nature is also respect for ourselves

The Facilitators

reconnecting.life is conducted, guarded and guided by experienced facilitators who are on their own personal journey of reconnecting to life from within.

Besides acting as the primary facilitators, we invite co-facilitators with extensive life experience within personal development related to business and leadership in one way or the other.

Our own experience within business, leadership and consulting goes many years back and we encourage you to look up our website to learn more about our professional background.

Devotion and total commitment to the purpose of reconnecting.life and the personal journey in itself are our common denominators. Besides this we bring our individual experiences, qualities and abilities into the process.

Martin Wendelboe & Tina Monberg

*"Unless you experience this journey personally, you cannot share it with anyone else."

reconnecting.life is a Social Economic Company created in the intention of reconnecting business to operate from another level of consciousness.

Our Vision

We believe an altered state in the world can be released by reconnecting to life, nourishing the holarity of our primordial human qualities of Power, Compassion & Wisdom.

We see leaders having an essential role in making this come true. By that leaders will create holistic corporations utilizing their full capacity and their abilities to take the lead and responsibility for life as a whole.

A New Story

Joseph Campbell from "The Power of Myth":

"...The only myth that is going to be worth thinking about in the immediate future is one that is talking about the planet, not the city, not these people, but the planet, and everybody on it.

And what it will have to deal with will be exactly what all myths have dealt with - the maturation of the individual, from dependency through adulthood, through maturity, and then to the exit; and then how to relate to this society and how to relate this society to the world of nature and the cosmos...

And this would be the philosophy for the planet, not for this group, that group, or the other group. When you see the earth from the moon, you don't see any divisions there of nations or states. This might be the symbol, really, for the new mythology to come."
